

Heat resistant glass with ceramic coating
セラベイク
Cera Bake
Perfect bakeware for cook and clean up

It's stress-free, heat resistant glass bakeware.

POINT
01

Easy and Quick washing!

The ceramic coating prevents food from sticking to Cera Bake. Since materials do not stick to the container, it is easy to wash and clean. You will enjoy cooking more than before because it is easy to clean up.

POINT
02

Cooking sheets and butter are no longer required!

You can omit the process to use a cooking sheet or butter/grease to prevent food sticking to the container. Enjoy economic and healthy cooking without grease. In addition, cooking time is reduced.

POINT
03

Cera bake is a great-looking container that can be served as it is!

Since it has a simple design, it is easy to match it with other tableware. So, it makes dining table co-ordination simple. There are fewer items that you need to wash after the meal.

POINT
04

It is a long-lasting product that you can use for a long time!

Cera Bake has passed the peeling test using a metal turner over 10,000 times. It is a durable and reliable product that you can use for a long time.
